

BRIDE OF THE BLADES

Your assistant steps into a tall upright cabinet. The front door is then closed. Next metal blades are inserted through the cabinet at various angles, seemingly piercing the lady at random. Yet when the front door is opened, the girl has vanished! All the audience sees is an empty cabinet with blades penetrating through the box. There are no mirrors and she is not standing in a hidden corner.

Based upon a concept by British magician Frank Culpitt, this Osborne illusion was first published in GENII magazine. It is a dynamite prop that can be performed up close and surrounded. It is also a two-person illusion that packs flat for transport. This beautiful prop can also be customized in regards to color and pattern. It is decorated with Formica type laminate to resist scratches and endure many years of performance. This is quality magic at its finest! \$7500 shipped FOB. Manufactured by Chadwick Illusion Fabrications by special arrangement with Abbott's Magic Company.
