

COSTUME TRUNK

The magician displays a beautiful furniture-quality trunk that rests on a small-wheeled table. The table and trunk are revolved to show all sides. The magician then opens the lid of the trunk and the trunk's front panel is removed to reveal three Plexiglas drawers. The drawers are removed from the trunk one at a time. Inside each drawer is a different costume. One of the three costumes are chosen by a volunteer from the audience, it is placed back into the empty trunk, and the trunk is closed. The trunk and table are revolved one more time. Suddenly the magician claps his hands and his female assistant pops up out of the trunk wearing the selected costume! This beautiful production is built right with exacting craftsmanship and attention to detail for Abbott's Magic Company through special arrangement with Chadwick Illusion Fabrications. \$7500 FOB.
